

**Parts and universal hot cleaner**  
**600 SR**

mobile – with cleaning bath for cleaning parts and water recycling by the use of a sedimentation unit and 2 filters with filter monitoring

Technical Data	600 SR
Working pressure	ca. 4,5 bar
Spray/water volume	1,0 l/min
Operating temperature	90 °C in approx. 60 sec
Type of current	3P-N-PE/400V/50Hz
Nominal power consumption	6 KW
Filling quantities <ul style="list-style-type: none"> <li>• fresh water</li> <li>• concentrate</li> <li>• bath</li> </ul>	30 liter n.a. 25 liter
Main power cable	5 m
Spray hose pistol	2 m
Dimension (LxWxH)	76 x 60 x 116 cm
Weight empty	approx. 75 kg
Dimension of cleaning grid (LxW)	70 x 50 cm
Filtration	100µm/ 30 µm
Water recycling	yes
Oil separation	Sedimentation unit
Load capacity of bath	approx.. 50 kg
Noise level	<70 dBA
Adjustable temperature	option
Tank and bath emptying	yes
Concentrate reservoir	n.a.
Changeable inserts	option
Filter monitoring	Yes
